

Family Connections will not turn consumers away based on their ability to pay. Individuals without insurance may be eligible for Medicaid, state or county funding, and/or a sliding scale fee schedule. Consumers may be deemed eligible for these payment methods through the procedures outlined below. Consumers meeting the eligibility requirements may be charged co-payments or fees based on their income; such fees are set correspondent to the income and cost fees determined by NJ Family Care.

### Maximum Monthly Income Thresholds for Determining Co-Payment Responsibility

Family Size	0-150%	151-200%	201-250%	251-300%	301-355%
